Energy Voice is a global, digital and print news platform for the oil and gas, renewables and wider energy sectors. The platform has a rich global scope and is read in more than 100 countries.

It reports breaking news in all of the energy industry’s key hubs, provides a diverse mix of columnists, in-depth market research, insightful analysis, exclusive video content, reports and up-to-the-minute industry coverage all in one place. It’s known for hard-hitting exclusives with the biggest players in business, including the CEOs of Shell, BP, Equinor and Baker Hughes.

The UK’s best-selling regional daily paper The Press and Journal has been delivering news since 1747. For more than 20 years the Energy Voice monthly supplement has been circulated along with the P&J.
**SCOTWIND**

With awards for the hotly-contested ScotWind leasing round just around the corner, we look at the runners and riders and the potential economic boost to Scotland from offshore wind.

**FEBRUARY 2022**

**OFFSHORE EUROPE/SUBSEA**

The show must go on! As both Offshore Europe and Subsea Expo kick off at the P&J Live (in person!) this month, we speak to the industry’s big hitters and dive into the potential of the Blue Economy for the north-east.

**MARCH 2022**

**SOUTHERN NORTH SEA**

As a mixed energy centre, the southern North Sea (SNS) is leading the energy transition for the UK, with wind farms rubbing shoulders with significant gas production. These projects and advancements will be on show at the SNS conference in Norwich (March 2/3)

*Special focus: Next Gen Energy/ reskilling for the Energy Transition*

**APRIL 2022**

**FINANCE, INVESTMENT AND M&A FOCUS**

At the start of the new tax year, we explore the evolving financial landscape of the energy sector. Whose got the cash and where are they likely to spend it?

**MAY 2022**

**NORTH AMERICA/OTC**

The Gulf of Mexico is a booming market and, post-covid, oilfield technology company CEOs, lawyers and accountants will make the trip across the Atlantic to Houston from Aberdeen for their annual pilgrimage to OTC. They will be showcasing new tools and gadgets, making deals and perhaps playing some golf. But will they find a US energy market in robust condition and brimful of opportunities? (OTC May 2 – 5)
CCUS/HYDROGEN

As investment in hydrogen and CCUS heats up, we look at the major projects underway in the UK and overseas to bolster the burgeoning market.

Special focus: Battery storage

SAFETY CHECK-UP

With the industry now back up and running having sustained the impact of Covid-19, what has been the lasting legacy of the virus on safety operations offshore?

NORWAY/ONS

(August 29th - September 1st)

In the run-up to biennial ONS Conference in Stavanger, we get the lowdown on the health of Norway’s energy sector. The Nordic country is often credited with being ahead of the curve compared to the UK, so what can we learn from our North Sea neighbours.

FUTURE NORTH SEA

The future of upstream oil and gas development is no longer clear for the North Sea. The policy of maximising economic recovery has now been counterbalanced by the UK Government’s 2050 net zero target. But while renewables account for a rapidly growing slice of the energy mix, oil & gas demand continues to grow on the back of the post-Covid economic boom.

Special focus: Tech showcase

D&I

It could be argued it is long overdue, but the oil and gas industry is more engaged than ever in addressing Diversity & Inclusion (D&I) parity within the sector. Where are efforts being concentrated, and what needs more of a laser focus?
DECEMBER 2022

YEAR IN REVIEW

Phew, what a 12 months that was! We’ll try to make sense of a roller coaster year for the energy sector, as well as looking ahead to see what 2023 has in store.

NOVEMBER 2022

DECOMMISSIONING/ADIPEC

The UK prides itself on being ahead of the game in the field of decommissioning. But how is the country staying ahead of the competition? How are the consortia set up specifically to cut costs and deliver well P&A campaigns faring? And which regions are most likely to welcome UK expertise soonest? We also look ahead to the annual Adipec conference in the Middle East and analyse how seriously the region is taking the energy transition.
