

ENERGY VOICE

Leading the global energy conversation

2024

Energy Voice is a global, digital and print news platform for the oil and gas, renewables and wider energy sectors. The platform has a rich global scope and is read in more than 100 countries.

It reports breaking news in all of the energy industry's key hubs, provides a diverse mix of columnists, in-depth market research, insightful analysis, exclusive video content, reports and up-to-the-minute industry coverage all in one place. It's known for hard-hitting exclusives with the biggest players in business, including the CEOs of TotalEnergies, BP, Shell and Equinor.

The UK's best-selling regional daily paper The Press and Journal has been delivering news since 1747. For more than 20 years the Energy Voice monthly supplement has been circulated along with the P&J.

JANUARY **OFFSHORE WIND**

2024

Time to check in on the offshore wind projects, from ScotWind to INTOG and beyond, on the UK's shores. Grid connection, supply chain and sustainability are all on the agenda as we assess progress and ongoing challenges.

FEBRUARY **SUBSEA**

2024

*Subsea Expo 20 - 22 February 2024, P&J Live, Aberdeen
Future North Sea, Aberdeen*

Subsea Expo is back for 2024, with a rising tide of technologies and a burgeoning Blue Economy to dive into. We host our annual Future North Sea event to discuss decarbonisation and transition.

Special focus: Technology, new industries, frontiers and data

MARCH **FRONTIERS**

2024

Net Zero Workforce, Aberdeen

Still plenty to play for in the West of Shetland and Southern North Sea, but what's the exploration appetite like as operators grapple with an uncertain future for the UK regime?

Special focus: Data in action

APRIL **FINANCE AND M&A**

2024

At the start of the new tax year, we explore the evolving financial landscape of the energy sector. Who has the cash and where are they likely to spend it?

MAY **EMERGING MARKETS**

2024

Invest Abz, Aberdeen

Where are the new global hotspots for upstream, new energies and low carbon activities? We ask Aberdeen local leaders to discuss their position in Invest Abz.

JUNE **EMISSIONS**

2024

We're in the height of summer, but we're taking the temperature on global efforts to tackle emissions.

Flaring, electrification, CCUS and Scope 3 are on the agenda.

Special focus: Alternative fuels

JULY 2024

HSE

Has the industry got to grips with key issues like delayed maintenance and a rising BMI for the offshore workforce? We investigate.

AUGUST 2024

NORWAY/ ONS

ONS Stavanger - August 26-29

As the ONS conference returns to Stavanger, we take a look across the water to the learnings to be had from our Norwegian neighbours.

SEPTEMBER 2024

THE ENERGY TRANSITION SUPPLY CHAIN

What's driving revenues for the supply chain? Is diversification paying off or are oil and gas signals staying strong?
Special focus: Business diversification

OCTOBER 2024

D&I

It could be argued it is long overdue, but the oil and gas industry is more engaged than ever in addressing Diversity & Inclusion (D&I) parity within the sector. Where are efforts being concentrated, and what needs more of a laser focus?

NOVEMBER 2024

DECOMMISSIONING

Adipec: 11-14 November
St Andrews OEUK decom conference
ETDIEX, Aberdeen

The UK prides itself on being ahead of the game in the field of decommissioning. But how is the country staying ahead of the competition? We also take a special focus on the Middle East and analyse how seriously the region is faring on the energy transition.

Special focus: Middle East

DECEMBER 2024

REVIEW OF THE YEAR

Has that been a year already? We take a look at the big headlines and developments over 2024 and gaze ahead at the next 12 months.
